No. 916) for the relief of.....	235	Mr. Cox, of New York, made the point of order that a resolution submitted by Mr. Hale was not in order, the Clerk having absolute control over the roll of the House. The Clerk sustained the point of order and from this decision Mr. Hale appealed. The Clerk declined to entertain the appeal, on the ground that it was not competent for the Representatives-elect to instruct the Clerk in the performance of a duty imposed upon him by law, and for the further reason that a higher question of privilege was pending, on which the previous question had been demanded.....	53
introduced by Mr. Blair.....	235	Mr. Cox, of New York, made the point of order, when Mr. Hale called up the election case of James B. Belford, that the question must first be taken on the case of the member first required to stand aside. The Speaker sustained the point of order, and thereupon stated the case of Joseph H. Rainey, of South Carolina, to be first in order.....	50, 60
referred to the Committee of Claims.....	235		

Points of order, rulings on—Continued.

	Page.
Mr. Sampson made the point of order that, under the resolution submitted by Mr. Durham and adopted by the House, the call of States for resolutions was in order, rather than the silver bill of Mr. Bland. The Speaker overruled the point of order.....	198
Mr. Burchard made the point of order that the latter portion of a resolution submitted by Mr. Potter required unanimous consent for its present consideration. The Speaker sustained the point of order.....	214
Mr. Pridemore made the point of order that a resolution concerning adjournment was not debateable. The Speaker sustained the point of order.....	214
Mr. Springer made the point of order that unless a motion be made to proceed to the regular order, the question before the House was the bill reported from the Committee on Banking and Currency by Mr. Ewing. The Speaker overruled the point of order, on the ground that the morning hour was limited to sixty minutes, and that the bill named had taken its place in the morning hour and could not be taken out except by unanimous consent.....	215
Mr. Conger made the point of order that, this being private bill day, Mr. Ewing's bill for the repeal of the resumption act could not be considered, and moved that the House resolve itself into a Committee of the Whole House. The Speaker overruled the point of order, on the ground that there was no Private Calendar and that the unfinished business of the previous morning hour was first in order.....	225
Mr. Frye made the point of order that the House, not having referred any measure, bill, petition, or resolution to the Committee on Naval Affairs for an investigation, as proposed by a resolution offered by Mr. Whitthorne, from the Committee on Naval Affairs, it was not competent for the committee to report the same at this time. The Speaker <i>pro tempore</i> (Mr. Saylor) sustained the point of order on the ground that the resolution was not a "measure" within the meaning of Rule 89, which might originate in the Committee of Naval Affairs and be reported by it to the House without reference on the part of the House.....	256
Mr. Conger and Mr. Hale, respectively, made the points of order that the unanimous consent given by the House to Mr. Mills related to that resolution exclusively, and thus an amendment to that resolution proposed by Mr. Banning could only be submitted by unanimous consent. The Speaker ruled that the resolution, being before the House by unanimous consent, was open to amendment under the rules of the House. Mr. Mills made the further point of order that the proposed amendment was not in order, not being germane to the proposition before the House. The Speaker sustained the point of order that the proposed amendment was not in order, on the ground that the same was already pending before the House, and therefore was, under Rule 48, not in order.....	458, 459
Mr. Buckner made the point of order that the motion to take up the joint resolution in relation to the international exhibition at Paris was not in order, the said joint resolution not being one of the regular appropriation bills exempted by the resolution making the resumption repeal bill a special order. The Speaker overruled the point of order on the ground that the language of said resolution was, "not to interfere with any appropriation bill," and as the said joint resolution was clearly "an appropriation bill," it was exempted from the restrictive terms of the said resolution.....	527
Mr. Baker, of Indiana, made the point of order that a quorum of the House had not voted on a demand for the yeas and nays. The Speaker overruled the point of order on the ground that a quorum was not necessary to order the yeas and nays. Mr. Clymer, at two o'clock and twenty-five minutes p. m., moved that the House adjourn; which motion was not agreed to. Mr. Clymer moved to reconsider the vote by which the yeas and nays were ordered. Mr. Burchard made the point of order that it was not in order to have the yeas and nays on a motion to reconsider the vote by which the yeas and nays were ordered. The Speaker overruled the point of order, on the ground that the motion to reconsider could be made on any motion, whether carried in the affirmative or negative, except the motion to adjourn; and that, if carried in the affirmative, the question would immediately recur on ordering the yeas and nays, and if then ordered by one-fifth of the members voting, a further motion to reconsider that vote would not be in order.....	811, 812

Mr. Conger made the point of order that a motion to suspend the rules was not in order until after the session of to-day, November 27, the present not being one of the six days within which, under Rule 145, it is competent to move to suspend the rules. The Speaker overruled the point of order and held the motion to be in order.....	726, 727
Mr. Mills made the point of order that a motion that the House take a recess was not in order. The Speaker sustained the point of order, on the ground that a motion to take a recess was not in order pending a motion to suspend the rules.....	813

THE END

THE END OF THE WORLD

The end of the world is a subject that has fascinated humanity for centuries. It is a topic that has inspired countless works of art, literature, and philosophy. The end of the world is a concept that is both terrifying and awe-inspiring. It is a moment of ultimate change, a moment when everything we know and love is brought to an end. The end of the world is a subject that has been explored in many different ways. Some people believe that the end of the world will come in a sudden, catastrophic event, such as a nuclear war or a natural disaster. Others believe that the end of the world will come in a more gradual, peaceful way, such as the gradual decline of civilization.
